Doing Better Business

Australian Essential Services Compliance (AESC) - Doing Better Business

Seeing the benefits our unique **Building Operations Support System (BOSS)** delivers is a tangible reminder of our commitment to supporting companies and our clients to do better business.

We continue to work with a diverse range of clients - from those gathering data for more than 1200 properties to brands focused on smaller projects requiring specialised risk data - our **AESC** team responds with a software platform solution to gather site data from audits to suit a variety of needs.

Our work with clients include system and portfolio set-up and training, as well as ongoing direct client access and in house support. The outcomes we achieve speak for themselves and we're proud to see things running so smoothly for clients property operations transitioning to the **BOSS** Platform.

Our experienced team attend workshop meetings to custom scope, design and train. **BOSS** custom reports - complete with carefully-modified input pages for data entry - are designed in line with our clients input for the right outcome. A thorough, written explanation of every aspect of the work we produce is also given to the clients to help them do business better internally with their own property teams, which in turn provides better ownership and use of the online system.

The speed and efficiency of our **BOSS** Platform has impressed our clients and is testament to the quality of our in house **AESC** support team, who are always available to assist and guide clients where required.

From a business perspective, delivering services and systems that are both adding value to our own company and pro-actively beneficial for the client receiving them, is a positive outcome for **AESC**.

We also work in with our clients to explore ways we can offer our **BOSS** service and expertise to their other trusted consultants. This enable clients to govern the data input and outputs with all third party providers - a direction that would see us produce a truly comprehensive and individually-tailored risk reporting platform from **BOSS**. With controlled resources to gather the data and a central cloud based system to store and maintain the data integrity for the client, the applications for ESM or PRA are a dynamic and business leading system for property portfolios.

Diversifying our software delivery is a great step to further strengthen what **AESC** offers the market.

Our **BOSS** offering Platform delivers:

- Exclusive cloud-based ESM management system
- Secure user-specific logins
- Complete visibility of data via customised customer views
- Flexibility to manage a property or an entire portfolio
- Improved risk-management transparency
- Live status reporting and KPI management tools
- Warehousing for plans, photos and other relevant docs
- Comprehensive suite of user-specific data push reports

For better business, choose **BOSS**.
